NEW APPLICATION:
Darlene Jones

Dr. Loomis conducted the phone interview with Ms. Jones. Ms. Jones has submitted application for licensure as an Osteopathic physician. She is presently living in the state of Tennessee. She stated she has applied with IHC and also has been offered a job with Nexus. She is presently working in Tennessee and is also licensed in Florida. These licenses are both in good standing. The discrepancies in her application were discussed. She stated she had multiple failures due to lack of time to be able to study. Once this was corrected she stated she passed quite well. She stated she has had to study hard in the past and had poor test taking skills at certain times in her life and now feels she is very competent. The Board feels a MOU with a probation license for one year or until she has her Board certification. A supervising physician would be required. If the certification is not passed additional time could be allowed. Ms. Baker suggested she may want to consider withdrawing her application until she has passed the Boards.

Ms. Jones was concerned it would look bad for her in the future if she withdrew her application. Ms. Baker stated this was not the case. The data base will state she withdrew her application voluntarily. It was the

decision of Ms. Jones to withdraw her application at this time.
